as apartment living in metropolitan area's can be quite small
the mUL.TI.BALL can cut down the amount of furniture that
needs to be purchased for the home.
it can operate as 4 different things...

- chair
- table
- sculptural decoration
- storage

the mUL.TI.BALL consists of 8 different pieces and two of the
halves fit together and make the ball and in this arrangement it
can be used as a table, storage or placed on top of another
assemblage to look like a sculptural piece of decoration in the
corner of a room.

when the user has visitors of more chairs are needed in the home
the balls can be opened and a arrangement of 8 seats can be formed.
there is also the option of using 6 seats and leaving the other two
together and used as a table in the middle.
the diameter of the ball is at 800 making the chairs quite large and
luxurious to sit in.
the mUL.TI.BALL coule be made in a variety of colour combinations
to suit the clients interiors.
the simplistic shape and the plastic outer surface gives the piece
quite a modern and playful appearance.
